Non-Union or Financial Core

Voice Description

Soft, loving mother; feisty grandmother; expert professional; friendly neighbor; Texas farm gal; quiet, comfortable story teller; lively, animated young business woman ...just about any female voice over thirty. You may hear samples of my basic voices on my demo CD, and I can show you many more in audition.

Training

I have trained with recognized experts in commercials, including Dolores Diehl, Roger Scott, and Brian Cummings, and I have studied audiobook and documentary narrations with award-winning narrators Stefan Rudnicki and Stephen Hoye. I am also a graduate of the Voices for All Master Class in L.A.

Additional Skills

As a writer and past professor of English composition, I can immediately grasp the intention of the most complex copy and convey it to the listener with just the right delivery to make its message interesting and meaningful. Having directed stage productions and coached students in interpretive reading and acting, I understand what directors expect and follow directions well. I am comfortable in any recording studio, or I can work on my own in my Pro Tools-based home studio and provide quality MP3/WAV/AIFF recordings, delivered promptly and efficiently.

Location

Ventura County, California (Los Angeles area)
